### • WHO WE ARE

We created Nomad Youth after seeing how difficult it can be for young people in Azerbaijan to find relevant opportunities in one reliable place. Today, we curate and publish opportunities while building a community around international mobility, non-formal learning and youth development.

### • WHAT WE DO

- Curate and publish local and international opportunities relevant to young people in Azerbaijan.
- Disseminate Erasmus+, ESC, volunteering, training, internship and youth development calls.
- Support participant outreach, local visibility and community engagement for partner organisations.
- Create practical educational content and learning activities around international opportunities.
- Build connections between Azerbaijani youth, universities, communities and international organisations.
