

SAVOV ALLIANCE EOOD

ERASMUS+ HOSTING & EDUCATIONAL EXPERIENCES IN BULGARIA

A partner for future-focused learning, comfortable hosting and cultural discovery.

LEARN. CONNECT. EXPERIENCE.

We invite youth organisations, sending organisations and Erasmus+ project coordinators to explore a potential hosting partnership with Savov Alliance EOOD in the Plovdiv region of Bulgaria.

Proposed hosting for groups of approximately 10–20 participants. Programme content, dates, venue availability and the final package are agreed individually with each partner.

A hosting concept built around meaningful learning

A successful mobility experience should offer more than a place to stay. Our proposed approach brings together practical learning, a comfortable setting, local culture and responsive on-site coordination—so partner organisations can focus on their participants and learning objectives.

01 FUTURE-FOCUSED LEARNING	02 COMFORTABLE STAY
Practical sessions built around AI, digital skills, entrepreneurship and emerging technology.	A four-star hotel setting, guest rooms and shared spaces, subject to confirmed arrangements and availability.
03 FOOD & HOSPITALITY	04 LOCAL DISCOVERY
Professionally prepared dishes and a multi-course dining concept tailored to the agreed package.	Cultural activities in Plovdiv and the surrounding region can complement the educational programme.

What we aim to coordinate

- A learning schedule shaped around the sending organisation's objectives and participant profile.
- Practical coordination before arrival and a designated local contact during the stay.
- Support with day-to-day logistics, timetable coordination and agreed emergency procedures.
- A certificate of completion issued by Savov Alliance EOOD, where included in the agreed programme. This is not presented as a state-recognised qualification.

We are open to discussing both existing projects seeking a hosting partner and future Erasmus+ cooperation opportunities.

Learning for a changing world

The proposed programme can be adapted to the group's age, experience, interests and project objectives. Sessions can combine short explanations, demonstrations, group work and practical challenges.

AI & GENERATIVE AI

Understand how modern AI tools work, explore useful applications and practise responsible use of generative AI.

AI FOR BUSINESS & ENTREPRENEURSHIP

Explore how AI can support ideas, productivity, customer research and small-business innovation.

DIGITAL MARKETING & CONTENT CREATION

Work with social media strategy, creative content, digital storytelling and campaign planning.

CYBERSECURITY & DIGITAL LITERACY

Build awareness of privacy, online safety, misinformation, digital identity and responsible technology use.

THE FUTURE OF WORK

Discuss emerging skills, human–AI collaboration, adaptability and the changing world of employment.

PRACTICAL BY DESIGN

Activities and learning outcomes are agreed with the partner in advance. The exact programme and trainers are confirmed for each mobility.

A comfortable base for the mobility

The proposed accommodation is a four-star hotel setting in the Asenovgrad / Plovdiv region. The images below illustrate guest rooms, welcoming shared spaces and facilities that may be included subject to the agreed hotel package and availability.

Guest room with multiple beds

Spacious guest room

Reception and arrival area

Lobby and shared space

Sauna / wellness facility

Fitness facility

Training and group spaces

A conference room is shown in the hotel photographs. Seating layout, equipment, room capacity and access for a specific group must be confirmed before a mobility is booked.

Group size, room allocation, accessibility needs, dates and any wellness-facility access are agreed individually. Please share special requirements and dietary needs as early as possible.

Food that makes the stay memorable

The hotel kitchen photographs show a varied selection of prepared dishes—from grilled specialties and seafood to cheese boards, desserts and casual favourites. A multi-course menu prepared by professional culinary staff can be discussed as part of the hosting package.

Grilled specialties

Seafood dish

Cheese selection

Chocolate dessert

Casual dining option

Dessert presentation

Meal arrangements

Breakfast, lunch, dinner, coffee breaks and other meal components can be included according to the final agreed package. Vegetarian, allergy-related and other dietary requests should be shared in advance and confirmed with the provider.

Photographs are illustrative of the kitchen's food presentation; menus, portions and availability may vary by date and agreed arrangement.

Discover Plovdiv and Bulgarian culture

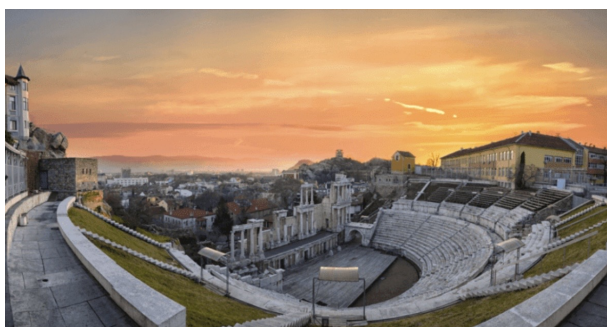

Plovdiv offers a memorable setting for cultural learning, with a historic Old Town, colourful traditional architecture, lively pedestrian streets and the Ancient Theatre. Cultural visits can be planned around the learning schedule and group interests.

Next step: arrange a short online meeting to discuss your project objectives, participant profile, dates, learning outcomes, accommodation and budget.

PARTNERSHIP NOTE

This brochure describes a proposed hosting offer. Dates, hotel arrangements, programme delivery, facilities, meals, cultural visits and costs are subject to confirmation in a written agreement. Savov Alliance EOOD does not claim Erasmus+ accreditation or prior approval of a project through this brochure.
