## "Youth on the Move" Association

### **Who are we?**

Youth on The Move is a Romanian non-profit association of young people, created in 2014 by a group of enthusiastic youngsters from the city of Ramnicu Valcea. Even if we are young we have plenty of experience in working in the NGO environment and specially tackling mobility projects developed in the Youth in Action mainframe. We are eager to work within the Erasmus Plus program, and we are constantly searching for partners abroad.

### **What is our mission?**

Our staff experience in different non-governmental projects is the base of our new mission: helping people developing their skills, attitudes and generally their life. We are working with children, teenagers and young adults from different layers of the Romanian society and we give a high priority to the ones that are in difficult situation. We believe that education is one of the answers in fighting poverty and social marginalization of young people and children. That is why our team of dedicated volunteers is organizing different non-formal education activities, putting together a volunteering center (the first in our city) and raising the attention of the public and authorities about school abandon, young adults unemployment, social exclusion and discrimination. We started working to a new strategy for tackling this issues, and consolidate our partnership with local and national NGO and Governmental institution in the field of youth.

### **How mobility projects can help us?**

The new Erasmus Plus mainframe is a great opportunity for us to develop projects that will finally benefits to our target. The "open minds, changing life" slogan designed for this new financing program is fitting our mission. The young people that we are trying to help will benefit from youth exchanges, EVS stages and youth workers mobility. Nevertheless, this will help us achieve one of our main targets: creating, supporting and enhancing an international network of organizations dedicated to youth work and non-formal education.

In order to participate to future projects in the Erasmus Plus mainframe, the Youth on The Move Association has obtained a PIC number and is in process for a EVS accreditation as a sending/hosting/coordinating organization.

Please feel free to contact us on with your ideas and suggestions, as we are constantly open for new partnership.
