

BALIKESİR İL MİLLÎ EĞİTİM MÜDÜRLÜĞÜ

BALIKESİR PROVINCIAL DIRECTORATE OF NATIONAL EDUCATION

Our organisation is a directorate which works within the scope of learning and teaching in the EU Educational and Cultural Integration Programs. We value the differences between countries and cultures and we uphold cultural tolerance. We also foster team spirit and promote the use of modern tools and methodology.

The directorate, which was established in 1924, is located in a 3-storey building with a total of 133 employees. The directorate oversees 904 schools, 12.247 teachers and 295.723 students.

Our directorate works hard to develop quality vocational and technical education and to improve the talents and abilities of the students in these schools. Furthermore, we aim to guide and encourage students in their studies by promoting creative analytical thinking and the ability to compete.

We also aim to broaden the perspective of the teachers in vocational and technical schools by facilitating the use of ITC, which thus enable us to fulfill sectorial needs in society. In the Public Education Center which is attached to our directorate, there are many young women who wish to train themselves in fields that will help them find suitable jobs. They take language, computer, web-design and other subject area courses. There are also many courses such as handcrafts, ebru (which is a traditional handcraft calligraphy) or secretarial work. These facilities and trainings will help women gain self-confidence and other required skills. As education is not limited to only schools, and the idea of life-long learning is gaining importance, Public Education Center is trying to provide its learners with the qualifications that are desired by the new global era.
