## **Project Description**

Nowadays, We are trying to implement training or youth exchanges and also another activities in youth field, but everytime planning via Internet create problems or extend the timeline of the planning phase of projects and it effects the quality of activitiy during the implementation and also dissemination phases. With that training, we will work on

that issues and we will try to work with participants about that topics for their future involvement on youth field and how to use Online tools for their future projects. Meanwhile, we would like to invite to the training Partner Countries for creating a HUB between the program countries.
