Artémat is a **strategic partner** of companies to manage recruitment and assessment activities.

artémat

skillgame

a skill profiling system, designed and managed "like a game"!

We will either find a way, or make one.
Hannibal of Carthage

RECRUITMENT&ASSESSMENT

Skillgame is a web based system for skills evaluation.
It allows to rank, in an easy and fast way, the candidate's skills about specific thematic areas. It can be integrated on the corporate website and on the main social networks.
The system uses a rich database of questions on several thematic areas (Problem Solving, Marketing, Human Resources, New Technologies, Business Plan, Business Keywords, etc.).

Skillgame is the best solution for companieswhich need to start recruitment and employer branding advertisements based on specific profiles

RANKING

Marketing

Problem Solving

Business Plan

New Technologies

high level

low level

WHY SKILLGAME?

because it is a simple and immediate system
because it gives a profile/ranking of each participant
because it allows to compare different profiles for each thematic area
because it is an efficient and useful profiling tool
because it reduces recruitment and assessment costs and duration.
