

Artémat is a strategic partner of
companies to manage recruitment
and assessment activities

webin-basket

Email, chat messages,
documents to analyze,
urgent decisions to be taken:
one hour to behave like a manager!

We will either find a way,
or make one.

RECRUITMENT&ASSESSMENT

Web In-Basket is an individual role playing that simulates how to take choices in a specific working daily situation.

Artémat has realized a web version of a consolidated tool using in a assessment/recruiting activities by the company, the In-Basket exercise.

Web In-Basket is a widely used assessment centre exercise because of the diversity of behaviours, as well as, Knowledge, Skills and Attitudes (KSA's) that can be tested.

EVALUATION

Web In-basket allows to evaluate the candidate's skills about:

- Planning and Prioritisation
- Analysis of information
- Decision making
- Speed & Accuracy
- Evaluation of situations
- Effective use of Time

SCENARIO

The candidate plays the role of a manager who leads a new position in the company where he works: in a short time he must take decisions about the work planning organisation, the corporate plans and the collaborators' involvement.

Web In-Basket, the innovative role-playing tool to manage recruitment and assessment activities in a company!
