

8th April 2015

ABOUT US

- Urolab (Urolako Ekintzaileen Elkartea) would like to promote the entrepreneurship and help and protect the new projects created in the Center Urola Valley.

HOW? WHEN? WHY?

- It is an association founded in 2014 to promote the entrepreneurship, creating a community for it, and try this way to improve the disturbing economic situation of the valley.
- We contribute to the creation of spaces which promote critical thinking and proactivity, everything based in the team work. For this purpose, we organize different events and activities during the year.

WHY ERASMUS+?

- Because we want to know other experiences about entrepreneurship and get the expertise needed to create the platform we want to build.

SUPPORT US, WHY?

- As we still didn't define the characteristics of the platform we want to build, we think it is interesting to know other experiences. We expect you to have a good experience with us, too.

Best regards,

Urolab TEAM
