

# “Power Forward”

*Empowering Youth Workers & Strengthening NGO Structures*

## Call for Partners

We are happy to announce the call for participants for the training course “Power Forward”, which is to take place in Eskişehir, Turkey. This training course is designed to address subjects such as organizational culture, personal awareness, managing your personal resources, teams & leaders, training, development & assessment, creating competency based organizational structure, organization management & development, systems management, change management, logical framework in operations, decision making and policy development, communication & information, knowledge & learning, strategic planning, financial management, tailored resource management, knowledge transfer, lifelong learning and sustainability in youth NGOs.

### Our Aim:

To discuss, strengthen & develop “the model” for a sustainable youth NGO by focusing on topics such as organizational structure, change management, communication & tailored resource management.

### Our Training Model:

The training course will have an interactive approach based on non-formal education and experiential learning methodologies. These methodologies will be applied with concept related tools in workshops & self-designed open-space environments with the inclusion of project trainers & participants.

### Background:

Organizational management, finding the resources and keeping them at all times has always been a challenge for NGOs including each and every NGO we’ve worked for. That is why we thought that it would be a good idea to create a training course which would be based on covering the main issue of self-sustaining NGOs. Not only socially aware about using the resources in nature but also has an organizational awareness in any way, time or place it operates.

Creating a model NGO which is more ready and stronger for the changes both inside and out and whose members know about the things that are preferred or required to reach to the objectives and support the aim of their organization.

### Further Details & Selection:

The activity of the project will take place in Eskişehir, Turkey between 09 - 16th of May. The arrivals and first meeting will be on 8th. There will be 2-3 participants selected from each country.(depends on the final agreements)

Gender balance will also be one of the priorities of the selection.

If you’re interested in partnering with us please send your filled partnership form + signed, stamped & scanned mandate
