

Young people from a Austrian's youth center are looking for a partnership to participate in a youth exchange about sport, music, art, culture...

Short presentation

We are a youth center in a small town in Austria. We are daily in contact with young people. Our target group is youngsters between 12 and 18 years. We have already an experience in European projects. We organize every summer since 13 years a European Soccer Tournament. We also take part regularly to youth exchanges and Erasmus + projects. Last year we hosted a youth exchange with Germany and Georgia and we would like to give an opportunity for a group of youngsters to travel in Europe by participating in a youth exchange next year.

Aim / Topic

We would like to participate in a youth exchange focusing on one of the following topics: Intercultural dialogue, art and sport. But we are also really open for other themes too. The most valuable thing is that our youngsters meet during one week other young people from another country, they share, talk, play and live together...

Also really important for us, is that the young people are involved in the organization of the week : program / accommodation ... We need to plan at least one APV together, so we can organize the youth exchange.

Participant profile

A group between 8 and 15 young people age between 13 and 17 years. They should be all from a rural area.

Date:

We would like to have the exchange at least one week and up to 10 days, between May 2016 and October 2016.

Our organization:

We are the youth center "ClickIn". We are open 5 days a week from 13 pm to 18 pm and try to make projects with young people. We host every summer an EVS volunteer and we organized with local organizations international projects. Our young people are already aware about intercultural dialogue, sharing culture...

You can find our website and our facebook page.

If you'd like to ask further questions regarding the project, future partnerships or about us please do not hesitate to get in touch with us.
