

## **DIFABILITY**

### **KA1 - Partner Countries - Mobility of youth workers PBA-Seminar + YE**

This multi action project includes two activities a Partnership Building-Seminar with focus in the work with people with disability and a Youth Exchange to foster inclusion, Human Rights and active citizenship. The aim of the project is to increase participation of young people with disabilities in international mobility projects by creating network of organization working with disabled young people and to empower directly young people with disabilities aiming at making them active promoters of opportunities which Erasmus+ Programme offers.

### **Partnership-building Seminar - PARTNER COUNTRIES - 10 countries, 2 participants per organization Date: mid of July**

The first activity **Partnership Building Seminar** will bring together member from NGO, representatives of Public and Private body, teachers, entrepreneur, persons already working with people with sensorial and physical disability, with the aim to create the network and increase number of international mobility project and improve their quality, and to enhance the participation of young people with disabilities.

The Partnership-building Seminar will include partnershipbuilding activity which focus will be to create network and together create new project proposal and **Seminar approach** during which **participants will directly presents methodologies, tool and best practice of their organization in the work with disabled young people.**

#### The objectives of Partnership-building Seminar:

- To strengthen the cooperation and broadened the network among NGO working with disability;
- to establish further cooperation, share and explore ideas and experiences for further cooperation;
- Share tools, instruments and methodologies which facilitate involvement of different groups of young people with disabilities in international projects
- sharing experiences with use of NFE and international mobilities as EVS and Youth Exchanges involving young people with disabilities with the aim to develop permanent skills, arise their employment and reinforce their active participation;
- Sharing of best practices and expertise on the use of NFL with people with disability in order to compare methods and empower youth leaders, youth workers, teachers and people working with this specific target group with new competences;

### **MULTILATERAL YOUTH EXCHANGES - PARTNER COUNTRIES - 4 Countries, 4participants + 1 Leader + accompanying person or sign language interpreter - Mid August**

#### GROUP composition

- 4 participants aged 18 -25 (1 or 2 ?! with sensorial or physical disability)
- 1 youth leader aged +23 with previous experiences in YE and facilitate activities with people with disabilities
- 1 accompanying person or interpreter (depends on special needs)

From previous experiences we noticed that bringing together disability and people without had brought an effective impact on both youngsters thus reducing fears related to disability and establish closer relationship among humans. Willing to take this as model for a much more inclusive and cohesive society we want to promote

a youth exchange where people from different cultures, backgrounds and ability - physical and not - can grow ideas together to empower their own competences and to promote active involvement of youth in the society. The activities during the YE will be shaped in accordance with specific needs of participants with disability and be based on NFE methods to foster an active participation of all. Participants will be encouraged to use media as tool for communicate positive message of inclusive society to peers and for raise awareness on human rights and equal opportunities.

#### Objectives

- to empower young people with competencies which will allow them to become promoters of inclusive society and arise their active citizenship
- raising awareness about topics of accessibility of the public space and public services to people with disabilities and break stereotypes and prejudices
- to increase interest of young people with disabilities in international mobility projects
- to use NFE as a tool of breaking barriers between young people with different abilities
