Our activities aim to contribute to local and regional development and sustainability. Our main target group is youth (but also adults and children) that we aim to motivate to active, creative and sustainable life-style in the countryside. Throughout year we prepare several events, like seminars, workshops or festivals in the fields like permacultura, handicraft and non-formal education.

## *Venue:*

We are founding Village center of non-formal education “Golden hill”, to create a space for education, expression and exploration of ones Self through creative, cultural, spiritual, artistic and also everyday-life activities. Besides that we carry on local museum “Black kitchen” with traditional way of cooking and living. Our centre is located in Prenčov a small village, with rich cultural heritage and many living traditions. Life of the village is closely connected to nearby town of Banská Štiavnica. Town is part of UNESCO cultural heritage and it is one of the favorite Slovak destinations in the summer with many cultural events through the whole year.
