

Innovative Solutions for Specific Projects

1. Vea Global in a nutshell

2. Vertical Areas

- 2.1. Energy
 - 2.2. Environment and Sustainability
 - 2.3. Engineering and Works
-

3. Horizontal Areas

- 3.1. Strategy and Organization
- 3.2. Research & Development and innovation
- 3.3. Project Management and Funding
- 3.4. Training
- 3.5. Dissemination and Communication

1. VEA GLOBAL IN A NUTSHELL

TECHNICAL CONSULTANCY AND ENGINEERING

EXPERIENCE : 16 YEARS

VEA GLOBAL'S PHILOSOPHY IS ALIGNED WITH UN GLOBAL MILLENNIUM GOALS: EQUALITY, DEVELOPMENT, SUSTAINABILITY

CERTIFIED ACORDING TO THE ISO STANDARDS 9001 (QUALITY MANAGEMENT) AND 14001 (ENVIROMENTAL MANAGEMENT)

1. VEA GLOBAL IN A NUTSHELL

Headquartes in Spain

Subsidiary in Mexico

Number of employees: 20

**Offices in Colombia,
Belgium and Malta**

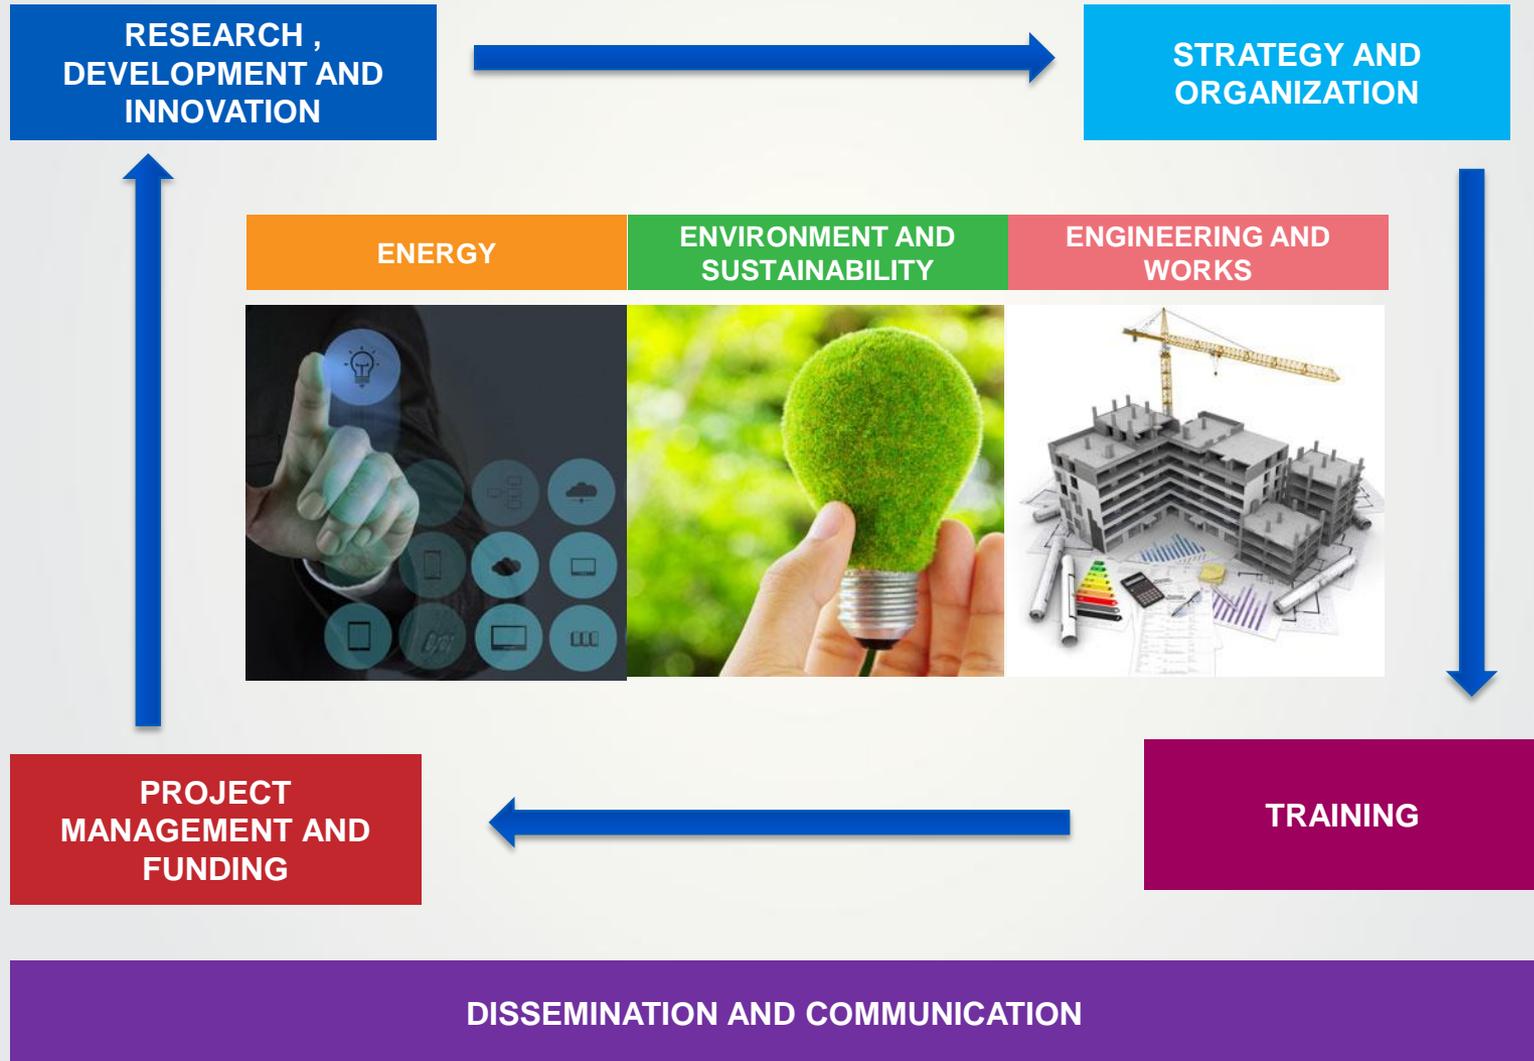

**Employees Qualifications:
Engineers, Chemical,
Economists, Vets,
Environment Specialists,
Geologists**

**Language Spoken:
Spanish, English and
French**

1. VEA GLOBAL IN A NUTSHELL

Vea Global Areas

2. VERTICAL AREAS

AREAS AND REFERENCES

ENERGY

- Implementation of Energy Efficiency Programs in **Agricultural** sector
- Energy Efficiency in **Accommodation Buildings**
- Energy Studies in **Municipalities**
- Energy efficiency and Renewable energy **Plan**

ENVIRONMENT AND SUSTAINABILITY

- Citizen environmental **awareness program**
- Climate change and clean energy strategy
- Evaluation and local action plans: **Agenda 21**
- ECCO project : strategy, creativity and **eco-innovation**

ENGINEERING AND WORKS

- Design and implementation of **Energy saving Measures**
- **Photovoltaic** System Program
- **Cogeneration** Plant of Biomass

2.1 ENERGY

SERVICES

Energy audits and energy diagnosis

Plans for improving energy efficiency

Tariff planning and optimization

Renewable energies

Energy management systems

Energy certification of buildings

Energy innovation projects

Public and private project funding management

2.2. ENVIRONMENT AND SUSTAINABILITY

SERVICES

Environmental audits and studies

Environmental education and training

Citizen participation

Agendas 21

Waste management systems and waste minimization plans

Sustainability and environmental communication memories

Environmental management systems:

- **ISO 14001, EMAS, Carbon footprint, voluntary commitments**

Adaptation to the environmental law of responsibility

Projects, studies and reports of socio-economic developing

2.3

ENGINEERING AND WORKS

SERVICES

Facilities engineering

- Industrial, civil, commercial and residential use, projects draft, professional search for execution, project management.

Renewable energy installations

- Photovoltaic, solar thermal, mini-wind power for isolated solutions, cogeneration, water pumping, biomass, hydrogen technologies and renewable energies integration, geochemical energy.

Feasibility studies and preliminary projects

Civil works and environment development projects

Reporting and management

Administrative procedures and legalization

AREAS AND REFERENCES

**STRATEGY AND
ORGANIZATION**

**RESEARCH ,
DEVELOPMENT AND
INNOVATION**

**PROJECT
MANAGEMENT AND
FUNDING**

TRAINING

3.1 STRATEGY AND ORGANIZATION

SERVICES:

Management systems according ISO to standards

- 9001,14001,OHSAS, 22000, 17025

Business excellence model

Strategic planning

Corporate social responsibility

Management by processes

Specialized training

Communication and dissemination strategies

- Design and implementation

3.2 R&D AND INNOVATION

SERVICES

Innovation management

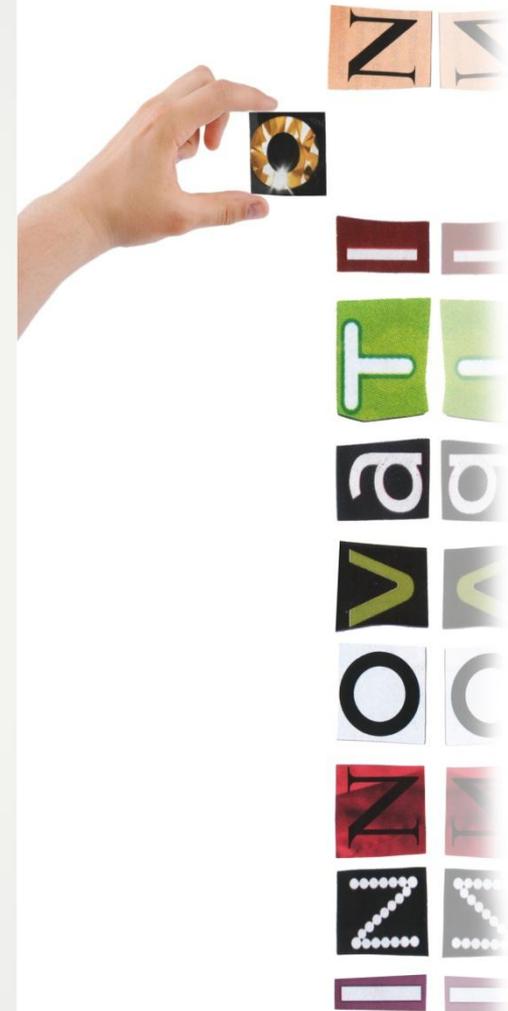

- R&D and innovation plans
- R&D and innovation management system
- Technology monitoring and competitive intelligence systems
- Project management

Ecoinnovation

- Eco Design
- Eco Efficiency

Training

- Creativity workshops
- Training in R&D and innovation: management systems, technology monitoring, tools of R&D and innovation

3.3 PROJECT MANAGEMENT AND FUNDING

SERVICES

Project management

- Project definition
- Grants and aids information
- Search of funding in regional, national and international calls

Certification of R&D and Innovation projects

- Assessment of potential of tax deduction

Aid request

- Proposals generation
- Monitoring and defense of the project

Aid justification

International projects management

3.4 TRAINING

SERVICES

Experienced training

- Strategy
- Team work focused on results
- Management of change
- Project and process management
- Creativity workshops

Training in-company

- Training plan design
- Efficiency evaluation
- Individual, group and organizational measures of improvement

Technical and managerial advance training

- Strategy and managerial organization
- R&D and Innovation management, technological watch, financing and tax system, creativity
- Quality and improvement
- Energy Efficiency and Energy Management

3.5 DISSEMINATION AND COMMUNICATION

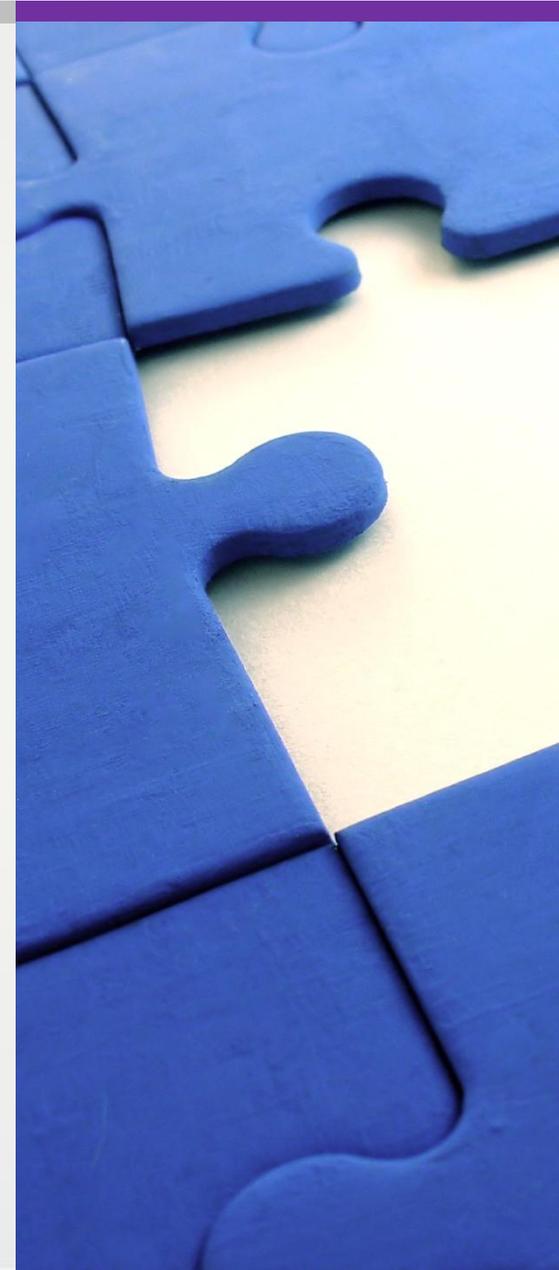

SERVICES

Definition of Communication and Dissemination Plans

- Strategy
- Target audience definition
- Analysis of relevant media
- Scheduling
- Motivation of work teams

Implementation of Communication and Dissemination Plans

- Usage of ICT communication tools
- Fairs and events
- Press releases
- Conferences
- Workshops
