The projects also contribute to strengthening the quality and the role of youth work in Europe.

Erasmus+ is the European Union's programme for boosting skills and employability through activities organised in the field of education, training, youth, and sport. Youth activities under Erasmus+ aim to improve the key competences, skills and employability of young people, promote young people's active participation in the society, their social inclusion and well-being, and foster improvements in youth work and youth policy at local, national and international level.

Altogether, **30** people from **Belarus, Czech Republic, Georgia, Hungary, Italy, and Slovenia** took part in the project.

The overall aim and specific objectives of the project:

- To collect the youth workers and leaders and to raise their awareness about the global Citizenship.
- To let the participants learn the respect of difference and its acceptance through the way of keeping their individualism.
- To check and learn previous experience in relevant topics, to understand participants' personal visions, ideas and practice.
- To help understanding to youth people the meaning of global citizenship, how does it work and how should it be created.

Main contents and activities of the project:

Why is it good to understand World Citizenship? Because a peace will be easy to achieve, if we realize that we are human beings with equal rights. A world citizenship doesn't mean the loss of nationality, but to share the suffering or joys happened to the other part of the world and to feel its influence as locals. A world citizenship increases human responsibilities. We become more informed and educated because we can use world's achievements without any borders. And the education is freedom.
