

ORGANISATION PROFILE

European Learning Opportunities

OUR MISSION

“Usak MeM EU Projects Office has been established in 2004 in order to improve youth works and other educational EU projects in Uşak/Turkey in societal level and to enable young people to be heard.

The main reason behind its establishment as a non profit organisation fact the lack of a sound and specific youth policies in Turkey in state level. Young people suffer from this lack of interest from society. There is no a legal definition of “Youth Works” in Turkey, whereas in European Union youth is defined as people between 13-30 years old and work in the area. Moreover democratic participation and active citizenship mechanisms for youngsters in Turkey are insufficient and inefficient and civil society consciousness is low among young people due to lack of an organized youth information system in Turkey.
