Summary	<p>There are serious several problems about employability in the labour market for youngsters in EU and also in TURKEY. From statistical view when we investigate Turkey's EU's overall ranks, unemployability is high now. Labour market's prior problems engaged to youngsters. According to TÜİK (Turkish Statistical Information Institution) parameters; 15-29 years old youngsters consist the 24% of general population and unemployment rate is 19% for this age range, this general view seems similar among some of EU countries.</p> <p>Unemployment does not cause only economical problems; it causes social exclusion, psychological problems, health problems, violence, crime inclination, alcohol and drug usage and such problems among the youngsters. Obstacles in front of the youngster's employment can count as; lack of employment areas and low power of economy, low connection between education system and labour market, unreachable internship and practical implementations for youngsters, disadvantage regulations of labour market, youngster's lack of awareness about supportive institutions for employment opportunities according to their characters and features.</p> <p>In this context our Project is related about youth employment, economic independency and wellbeing of youngsters, active participation of youth, inclusion of youngsters to the economical and social life. Our Project aims help to decrease the youth unemployment, increase the wellbeing of youngsters, make connection and construct a bridge between youth and labour market, develop the youngsters with fewer opportunities about basic skills and competences, increase the quality of youth works via contributing and empowering the partnership between institutions which is working in labour market and youth field.</p>

We aim to reach 150 young participant with fewer opportunities in our centre of city and its 5 districts and from several EU Countries. The prior participants will consist of physical, geographic and social disabled youngsters and hereby they will include to social and economic life actively.

Main Project activities will be non-formal education based workshops, seminars, institution visits, area researches, summit (structured dialogue). Hereby youngsters will gain new skills and competences about career planning & self development, Europass CV preparation, interview techniques for job-seeking, practical entrepreneurship education etc. Seminars will be held about labour market, employment opportunities & policies, entrepreneurship, start-up, General Info about EU, National Agency and Erasmus+ Youth Programme, Eurodesk, European internship opportunities.

One of important main activity is area research with 500 youngsters about employment and we waim to reach 25 factory to research what employers want, youngsters will realize this area research by themselves and they will experience it. In the dissemination activities, we will open introduction stands in crowded streets and distribute banners, flyers about national and EU employment opportunities and supportive institutions in this field. We will visit the factories and public organisations with youngsters and they will have chance to see the working areas by their eyes. At the end we will organise Structured Dialogue (summit) to meet the stakeholders, decision makers, sectoral representatives and youngsters hereby we create an interactive platform to share demands and offers about labour force and will contribute to make new and positive policies in local and national level and international level for youth employment.

By this Project young participants will be able to develop their skills and competences about;

- Discovering their own advantages and potentials
