

„The door to Europe – level 2”
EVS Hosting project in Foundation CampoSfera

Call for Volunteers

Basic information:

Project dates: 1/03/2018-31/10/2018

Number of volunteers: 3

Age limitations: 17-30

Contact and more info: jakubkubiec@gmail.com

Volunteer's profile:

The volunteers we would like to host should, first of all, be willing to live and work in the rural area and not be afraid of physical and outdoor works.

We would especially welcome people who are interested in ecology, permaculture, gardening, natural building and/or working with the small local community in rural areas (especially kids and youth). Our main concern is that the volunteers will find the project interesting, personally developing, fruitful in terms of knowledge and skills and simply satisfying. In our opinion, people with the above mentioned features and interest would feel most fulfilled.

Volunteers' tasks:

The volunteers tasks are shared between three areas:

1. Work connected with the local community
 - organizing small fests in the whole region-the volunteers will use the EuroCar to reach small places; - organizing meetings and workshops in schools and kindergartens; - providing guidance and support for local youth who would like to take part in international youth exchanges or volunteering
2. Work connected with the Foundation's building and area around.
 - taking care of the garden; - organizing the area according to the season; - works connected with some finishing work in the building; - creative manual work.
 - baking bread, making cheese, milking cows; - making wooden furniture, collecting herbs, making cosmetics and ecological household chemicals, etc.
3. Helping with the events organized and hosted by the Foundation

We host groups of youth exchanges, training, festivals. During those events we involve volunteers into work such as cooking, cleaning, organizing free time, arranging the space for the events.

„The door to Europe – level 2”

EVS Hosting project in Foundation CampoSfera

Who are we

The aim of Foundation CampoSfera is to initiate activities and projects that will connect education with sustainable development, ecology and innovation. The Foundation rents a building after a closed village school of 550m² with the surrounding area of 1,3 ha. The building has been renovated. It is heated and includes bedrooms, showers, toilets, training rooms, kitchen, dining room and a workshop.

We have a permaculture garden. The garden includes vegetables, herbs and green architecture such as willow gazebo.

The Foundation is also area of innovative ecological solutions that can be spread throughout the society.

The main target group of Foundation CampoSfera's activities is youth, local and international. We want to give the local community an opportunity to meet with representatives of various European and world cultures, to learn foreign languages and be inspired by youth from all over the world.

Foundation is a special place where you can find a place of solitude and calmness while working close to nature (especially in early spring and late autumn) but also a place where many people come and go and a lot happens (especially in summer). In CampoSfera the volunteers will have a chance to meet people from all over the world who come to volunteer for a shorter or longer period of time. So far we have hosted volunteers from Colombia, Mexico, Japan, Malaysia, Spain, Sweden, Romania, Germany, the US, Canada, Belgium, Italy, Portugal, Andorra, France, Turkey, Taiwan, Croatia. We also host international project groups of 15 up to 40 people. In summer we organize music festival for the local community and outdoor cinema.

Where are we?

The Foundation is placed in *Klimontów* near the city of *Sedziszów* in Swietokrzyskie region, Poland. It is a **small village** on the border of three regions. It is a peaceful place, well connected with Kraków (airport), Kielce and Katowice (airport), the capitals of the three regions.

The location of the Foundation is connected with the nature of the project – ecology and rural development!
