

Information about the project ERASMUS + VILLARROBLEDO

The project ERASMUS + Villarrobledo, falls within the key action 1 of mobility of persons in the field of education, training and youth. In particular it is a project in favour of the mobility of young people, entered in the register of the warranty program youth, participating in a training action for the acquisition of the professionalism of level 2 certificate: "revitalization of" child and youth educational leisure activities". The training action is part of another project of comprehensive care for the training and employment. First we present, broadly speaking, the project which is certified such part of professionalism, then we describe broadly the project with which we wish to work in the call ERASMUS +.

The project "IN-GENI @" is defined as a set of actions aimed at **facilitating comprehensive learning paths**. Through the set of actions proposed the young beneficiaries of the project will improve their employability in productive activities that have greater chance of economic viability in Villarrobledo. In this way the project "IN-GENI @" falls within the operating youth employment program developing the specific objective 8.2.2 "strengthen employability and professional competencies of young people not occupied and not integrated into the systems of" education and training". Through the definition of a series of orientation and formation itineraries the / as young beneficiaries will reach favourable for labour and professional insertion skills.

The project ERASMUS + Villarrobledo revisits the concept of learning paths integrals to propose a project of mobility of students in the process of obtaining certification of professionalism that is part of the youth guarantee scheme to expand the character of "integrity" in a triple sense. On the one hand promote the language skills of language, on the other, improve the employability enhancing international trade and third promoting European citizenship through the relations of exchange among equals.

ERASMUS + Villarrobledo proposal is to deepen those skills worked during the course of certificate of professionalism of level 2 "revitalization of education children and youth leisure activities", which may facilitate the development Professional of the / as students. The / titled / as are qualified to organize, promote and evaluate activities of educational leisure aimed at children and youth, applying, therefore specific group animation techniques, with a focus on education in values and According to basic safety and risk prevention measures.

The experience of mobility which aims to promote from the Agency of Local development of Villarrobledo consists of performing a training action of short duration to deepen skills related to the following areas:

- Transversal actions: languages, entrepreneurship and social skills;

- Local resources for the implementation of projects of revitalization work
- Meet the institutional and resources of the private sphere for the realization of free-time activities

The beneficiaries of mobility action would be students participating in the course of dynamization of leisure education children and youth, who have obtained certification and wish to broaden the educational experience. Will make the selection of students with the advice of the Faculty Center.

The experience of mobility will have a maximum duration of 6 days, counting the days of displacement to part.

The / pupils participating in the project ERASMUS + this call have the following characteristics:
