

UNITE AGAINST THALASSEMIA

PARTNERSHIP CALL FOR the ERASMUS+ KA1 TRAINING COURSE PROJECT

SHORT SUMMARY OF THE PROJECT:

Thalassemia disease, which is common in the Mediterranean, Europe and other countries, threatens the Healthy World Youth. Diagnosis and treatment methods must be known in order to prevent this disease. Millions of people are unaware that they carry this disease. Increasing the awareness level of society should be raised in this issue.

There will be a team of 35 people consisting of young people and youth older than 18 who are entrepreneurs, respecting differences, economic, geographical and social disadvantaged. The Project will take 7 days

**Please send an e-mail for the partnership
from Erasmus+ Program & Partner Countries.**
