- 2) ERASMUS + KA1 Mobility project for adult education staff - job shadowing

### **WHO WE ARE**

Work'n'study does not issue scholarships, instead we supply services such as Italian language courses, accommodation and internships. Customer care and assistance is of course included in abundance. Work'n'study stems from the need to offer people new opportunities for personal enrichment and sharing with others.

## MISSION AND OUTCOMES

Our philosophy develops from real-life experience abroad, through which we became aware of the invaluable significance of interrelation and exchange with people from different cultures. This means sharing with others, learning to respect others. This is the reason why we are eager to put our knowledge at the service of those who, like us, believe in the journey as a personal development. We would like to help STUDENTS AND TEACHERS to develop their skills through work experience; to improve their use of Italian as a means of communication in class and in everyday situations. Under this **Key Action** are expected to bring positive and long-lasting effects on the participants and participating organisations involved, as well as on the policy systems in which such activities are framed.

As regards **students, trainees, apprentices and young people**, the mobility activities supported under this Key Action are meant to produce the following outcomes:

- increased sense of initiative and entrepreneurship
- increased self-empowerment and self-esteem
- improved foreign language competences
- enhanced intercultural awareness
- increased motivation for taking part in future (formal/non-formal) education or training after the mobility period abroad

As regards **staff, youth workers and professionals involved in education, training and youth**, the mobility activities are expected to produce the following outcomes:

- improved competences, linked to their professional profiles (teaching, training, youth work, etc.)
- broader understanding of practices, policies and systems in education, training or youth work across countries
- increased capacity to trigger changes in terms of modernisation and international opening within their educational organisations
- greater understanding of interconnections between formal and non-formal education, vocational training and the labour market respectively
- better quality of their work and activities in favour of students, trainees, apprentices, pupils, adult learners, young people and volunteers
- greater understanding and responsiveness to social, linguistic and cultural diversity

## LOCATION

We are located in Seregno; a cozy and homely town at the foot of the Alps between Milan and Lake Como. Brianza, the area where Seregno is located, is also known as 'The Green Lung', for being lush and luxuriant. You could [ride a bike](#) and in a few minutes find yourself surrounded by **green, leafy wilderness**.

Seregno's size makes it a **people-friendly town** and therefore an ideal place for a first experience abroad. You will integrate yourself easily into this little town. You can go to the bakery and enjoy artisanal bread or for a leisurely jog in the park far from the urban smog. Seregno is a **peaceful, safe little town** where residents take life at a leisurely pace. Seregno is characterised by rather cold winters (average temperature 5 C in January) and warm summers (average temperature 28 C in July). However, despite being little, Seregno is an idyllic place which offers all the comforts of a big city.
