

# “THE HATE SPEECH PANDEMIC”

ERASMUS + ROUND 2. KA105 YOUTH EXCHANGE

Erasmus+

We are a formally organized non-profit foundation, with the capacity for institutional self control. Fundación Plan B social bases its work on social education. Our actions are mostly determined by the educational intervention approach, through comprehensive education.

Our approach is a participant-based methodology, always putting the focus on our target group which is the youth, and more specifically rural youth with access to fewer opportunities. This is why we offer them a wide range of activities, which include leisure and recreational activities, employability programs, democratic dialogue with policy makers or academic support, among others, always aiming to improve their lives and to provide guidance in order for them to reach a successful adulthood.

Nowadays we lead the youth centers in Salamanca's (Spain) nearby towns, in which we manage street education, cultural management and democracy and participation projects, as well as newly designed international projects like the one we will describe as follows.

Our idea is to create a KA1 mobility project for november. We do not seek any specific profile of participants as we consider that the project can benefit any young person regardless of their characteristics or personal circumstances.

Theme of the project will be interculturality with special emphasis on the hate speech and how the Covid -19 has been used to legitimize it in some way.

## Goals

- Help to develop a better understand about the world we live in
- Foster intercultural interaction and collaboration through non formal education methods
- Teach how to see the differences positively
- Facilitate reflection on different dimensions of migration and mobility trends in Europe and wider world
- Favour positive attitudes, values and behaviours

## Contents

- Interculturality
- Migration movements
- Hate speech

Our societies are increasingly multicultural but on many occasions the exchange that takes place between different cultures is minimal and not exempt from conflicts, it is necessary to recognize and accept the difference, which leads to the establishment of cultural relations and, finally , to an integration of cultures.

Democratic societies cannot reach their full development until they promote the encounter and understanding between the diverse cultures of the territory.

We think it is necessary to share and to open the minds beyond our walls, and beyond tomorrow, to the future and to built a better Europe and a better world.

Second week of november approximately.  
(We can adapt the dates to the partners and the global situation also)

The project will take place in **Peñaranda de Bracamonte**, a place near **Salamanca**.
