The association team has big potential to extend its horizons due to the fact that the board members have more than 6 years experience in the field of non-formal education, concentrating on youth work, voluntarism, peace-building, social economy, active citizenship and participation. With increasing member numbers, the organization is gaining invaluable experience day by day. Regarding activities the organization aims to increase the role of young people in the conflict resolution process. Considering there are significant number of young people (IDPs) who has suffered from conflicts, we held activities to improve their interpersonal skills and to attract them to resolve conflict situations through dialog.</p>
