| CALL | Erasmus + KA2 – Spanish National Agency . Ronda 3. (1st October 2020) |
| Action | Strategic Partnerships- for youth |
| Project | YounGO Improving young population employability |

BRIEF DESCRIPTION OF THE PROJECT

Aiming (Erasmus+ guidelines): develop and reinforce networks, increase their capacity to operate at transnational level, share and confront ideas, practices and methods

Contextualization: We are currently assisting an exceptional and historic moment where all the consequences of the COVID-19 Pandemic situation are impacting the way our society organizes itself. One of the most important factors that we, as a society, should attend is the way we will create a labor market where young people could develop their own life projects in a way that they don't feel excluded from society and allowing them being an active part in searching solutions for the problems we are facing as a society.

Description: YounGo is a project whose main objective is to improve the employability of young people. The project will especially focus on the Mediterranean area where the average of young unemployment is extremely high. This project will develop a new methodology that will allow creating a multiplier effect, forming directly some young workers who will disseminate this knowledge between other young people in each of the countries who participate in the project.

Aiming at the following results:

1. Promoting young employability.
2. Increasing young people social inclusion
3. Reducing socioeconomic differences between countries from the European area
