## SUMMARY

This youth exchange aims to contribute to the achievement of the Sustainable Development Goals (SDGs) at the heart of Agenda 2030. Our activation in support of the Goals can only take place when we are aware of them and fully understand them. Knowing and understanding them means creating ways to achieve them. Bringing young people together at the European level to exchange ideas, share experiences means giving them tools to collaborate to achieve common goals. Supporting young people in creating and developing innovative solutions, means giving them the capacity to increasingly involve young people and communities, offering their own perspective and giving space to the action of the other.

## MAIN GOALS

- offer a space for meeting, dialogue and analysis.
- Improve understanding of SDGs and the role they can play in recovery;
- Facilitate understanding of how youth participation and activation is a key aspect of recovery and achievement of the SDGs;
- Promote the encounter between young people from different cultures and backgrounds and increase understanding and cooperation between them;
- To build the capacity of young people to design and implement initiatives, projects and activities in line with the SDGs;
- Identify opportunities for the inclusion of young people in civic and political participation and in the implementation of the SDGs;
- Empowering young people as changemakers by providing them with useful and practical tools through which to develop awareness-raising actions;
- Develop actions on the SDGs for awareness-raising, information and/or training;
- Promote the opportunities offered by the Erasmus+ Programme and the European Solidarity Corps and increase knowledge of the methods and tools of non-formal education.

# PARTICIPANT PROFILE

- interest in taking part in a multicultural experience (give priority to people who have had few or no opportunities to live experiences of this type and/or experience intercultural learning activities);
