

## Project proposal - Under Construction Erasmus+ Youth Exchange

### Project proposal

#### Project objective:

Under Constructions aims to bring youngsters together around the theme of the city, and reclaim the city as a place to be and to play.

The city is constantly changing, new buildings pop up, public spaces get a new purpose, new inhabitants move in and out, and so on. We will discover the city and all its turmoil and claim our own place in it. We will bridge the gaps that already exist and live together. The city is ours, it's our playground.

#### Participants:

Youngsters born between 2005 - 2008.

Some places are reserved for youngsters from disadvantaged backgrounds.

## Koning Kevin

### Who are we?

Koning Kevin is a non-profit organisation acknowledged by the Flemish Government as Youth Work. Our purpose is to stimulate and encourage a responsible, playful and animated attitude in children and youth. We organise activities that focus quite a lot on creativity. We include music, visual arts, media, movement and theater. We work with a staff of 9 people and almost 200 volunteers.

### What do we do?

We provide training to youngsters who want to work with youth on a voluntary basis. Therefore we have our own series of courses and we provide internships for them in our own organization. During the summer we organise summer camps with a strong focus on creativity. Our volunteers are all trained by Koning Kevin. The organisation has a large tradition in experimenting and working with art education and game-methods.
