ANKARA

Located in the Central Anatolian Region, Ankara is surrounded by Kırıkkale and Kırşehir at East, Çankırı at North, Bolu at the Northeast and Eskişehir at West, Konya and Aksaray at South. The average altitude above sea level of Ankara covering 26.897 kilometer square of land in a region dominated by plains formed by Kızılırmak and Sakarya Rivers, is 890 meters. While approaching towards north from the central parts of the city, you will see where the across North Anatolian mountain chain rises. Plains which were formed due to wreckage area and foldings between the mountains chains are located at the North East while there are Tuz Gölü (Salt Lake) basin and planes at the South part of Ankara Plain lying on the East-West direction. There are Mogan, Eymir, Karagöl, Kurumcu and Samsam natural lakes within the city borders. In addition to these, there are artificial lakes at the water basins of the dams of Çamlıdere, Kesikköprü, Kurtboğazı and Sarıyar having same name with them.
