LABORATORIUM DŹWIĘKU

The orchestra was created by Marek Żurawski in 1995. It is the only band of this kind in Poland and probably the only one in the world. They perform pieces with separate voices, as in traditional orchestras, but instead of acoustic instruments, they use 'contemporary' one - keyboards.

The orchestra's repertoire includes works by such well-known classical music composers as J.S.Bach, W.A. Mozart, E. Grieg, J. Sibelius, Ch. Gounod, A. Chaczaturian, A. Part, J. Haydn or K. Jenkins, as well as popular music by H. Mancini, Joe Garland, Phil Collins, Jethro Tull, Vangelis.

Now in the orchestra there are 8 members aged 15-22. They are connected not only by their interest in music, but above all by a special bond, understanding and shared values.

HIZNITS

The informal theatre group of the Hiznits project consists of 16 people of different ages and interests. Some of them have already had their first experience with theatre and performing on stage and others are just making their debuts with this project. Hiznits is students, high-schoolers, and working people connected by shared passion and a desire to do something good. The majority of the group are amateurs, still everyone is striving to be as professional as possible.

"In The Heights" is title of the musical, on which the group was working in 2020. The performance addressed topics of cultural belonging, tolerance, immigrants and their acclimatisation, social statuses, but also universal values – love, family support, responsibility and independence.

In 2022 the group started working on the musical 'A New Brain'. This musical addresses serious issues (illness, death, poverty, homosexuality), however it is not lacking in humour and irony.

BREAK ACADEMY

The group consists of ten 13-17 years old people fascinated with dance, movement and hip-hop music. They work out once a week in DK Kadr.

The leader of the group is Łukasz Depa – b-boy, choreographer, instructor. The beginning of his path and passion for dancing was at the turn of 1999/2000. He participated in numerous workshops in Poland, Europe, and the USA with the forerunners and pioneers of breaking. Leader in the youth exchange „European Dance Choreography” [France, Erasmus+]. He cooperates with Foundation Centre of National Creativity, theatres, dance schools and cultural centers. He deals with the organisation of competitions, festivals, dance events, as well as courses and workshops that aim to inspire participants to develop their own personality, awareness of movement and body, physical fitness and creative thinking. He took part in competitions and dance festivals, among others: “Soul Cypher” (Florida), “Freestyle Session” (Los Angeles), “Energy Leve7” (New York), “Break Free 5” (Houston), promotional and media campaigns, among others: “Expo 2015” (Milan), performances and cultural events: “Warszawski Sen” (Warsaw), “Instant Acts” (Germany, Italy).

GEOCACHING

KADR is a meeting point for active Warsaw geocachers. Geocaching is an outdoor game, the best local guide, a creative way of spending time for people of all ages. It is also a great tool to use in Erasmus+ projects.

KADR together with geocachers organise GIFF [Geocaching International Film Festival], projects and events promoting geocaching.

The result of the collaboration with the geocaching community is the first podcast about geocaching in Poland. "Między keszami" was launched in June 2022 and has already gathered more than 1,000 fans online.
