

ABOUT Forest Schools

Forest School is an international outdoor education concept that has been spreading out through the global education systems. The approach started in Denmark and was adopted by different countries. It has been very effectively implemented and popular outdoor education delivery model in the United Kingdom, USA, Canada, Europe, Australia, and Asia.

Kinds of research showed that children and youngsters are stimulated by the outdoors and typically experience, over time, an increase in their self-belief, confidence, learning capacity, enthusiasm, communication and problem-solving skills and emotional well-being. Also, it impacts the academic achievements and social-emotional circumstances of kids.

Our curriculums are targeted to develop physical, intellectual, social, emotional, psychological and character building of children.
