

DEVELOPMENT AND NETWORKING  
FOR A TRAINING EVOLUTION

**25 -27 JANUARY 2023**

SHERATON ZAGREB HOTEL

Ul. kneza Borne 2

Zagreb, Croatia

# The 2nd edition of the DANTE networking event Development And Networking for a Training Evolution

25th to 27th of January 2023

The aim of this network :

- establish and strengthen the capacity of stakeholders in the education system at the national and international levels,
- consequently improve and establish quality systems within the entire education sector
- provide professionals from our and other institutions with access to the European network of organizations,
- encourage participants' broader understanding of European practices and policies,
- help to respond better to increased social, linguistic, and cultural diversity in our community and improve the quality of their work.

The first networking day is planned as a European fair during which each participating institution will be free to present their scope of work, but also to present a part of their culture and region they come from, through local food and drinks.

During the second two networking days, we aim to connect professionals from different organizations across Europe with the purpose of developing new project proposals for EU grants that will enable us to support our local communities as well as encourage innovation, interaction, dynamism, and the establishment of a quality assurance system in our national education system.

Please fill in the [registration form](#) by the **12th of December 2022**.

Dante will provide the organization of the event, the coffee breaks, and lunches free of charge. There is no registration fee.

Dante does not provide accommodation for event participants, but if you would like to book accommodation at the event venue, you can do so at a discounted price by following this [link](#).

For additional information please contact **petra@dante-ri.hr**.
