

ASSOCIAZIONE DON BOSCO 2000 - IMPRESA SOCIALE

non-profit, non-governmental association and social enterprise
established in Piazza Armerina, Sicily (Italy), in 1998

ABOUT US

The Association Don Bosco 2000 - Social Enterprise was established in Piazza Armerina, Sicily, in 1998. It has been working in the field of migration since 2011 and in development projects in Africa since 2016. At a local level, it works with volunteering and educational projects, focusing on sustainability, sports, democratic participation and advocacy.

OBJECTIVE

The objective of the association is to promote the integral formation of people, paying particular attention to migrants and the weakest and most disadvantaged sections of society, including children and unaccompanied minors.

MISSION

Promote cooperation in local and international development through social, solidarity, educational and professional activities and through planning in the field of human, cultural and socio-economic development, both in Italy and Africa. Our sectors and projects range from: solidarity, hospitality, local and international development and cooperation, education, sports, food security, sustainability and women empowerment.

VISION

Don Bosco 2000 is inspired by the preventive and educational system of Don Bosco, Saint and Founder of the Salesian Charisma, who - with his vision and his educational system - proposed a way to overcome the injustices and inequalities of his time, extraordinarily current and effective in Italy and in the world today.

MAIN AREAS

WELCOMING MIGRANTS

We welcome more than 300 migrants every year coming from different parts of Africa and Asia, and recently Ukraine. The aim is to improve their living conditions through legal, medical and psychological support, and professional training.

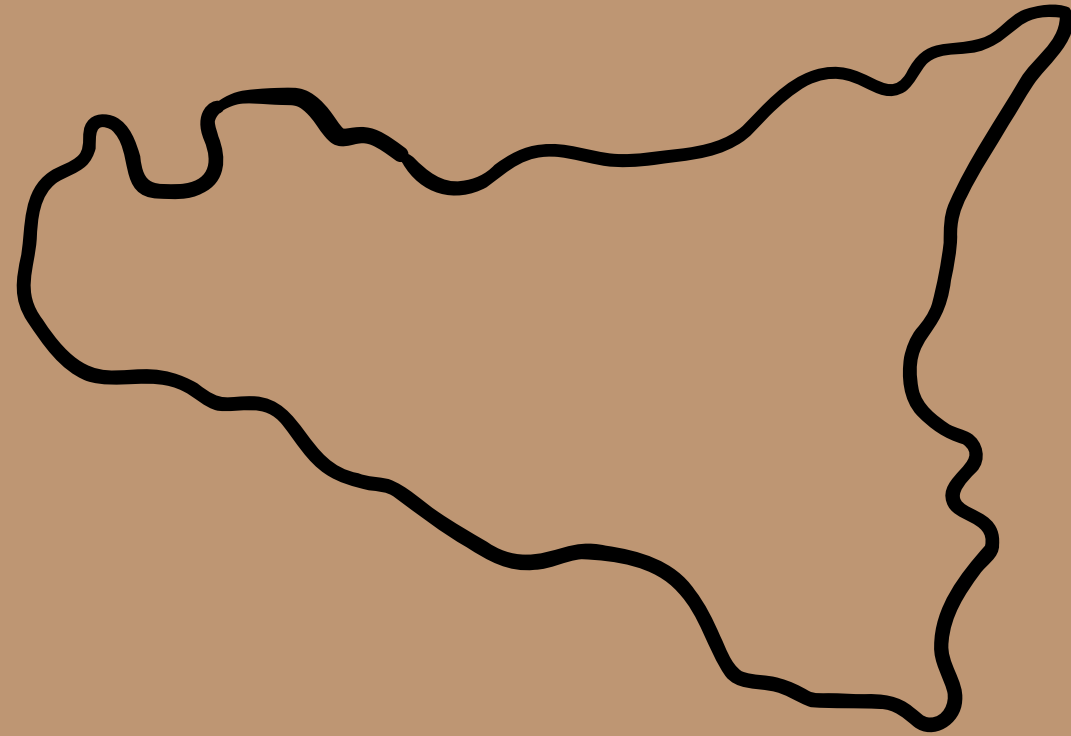

LOCAL DEVELOPMENT

The Association believes in local development of rural areas and has been working in the field of advocacy, sustainability, sports, social fashion, education, fight against the mafia, and youth active and democratic participation.

DEVELOPMENT PROJECTS

Since 2016, Don Bosco 2000 is present in Senegal, Gambia and Mali through cooperation projects and the construction of chicken farms and gardens with the aim of empowering local population, providing jobs, fighting hunger and strengthening women involvement in society.
