ABOUT PROJECT

ERASMUS+ KA153 PROJECT

INTERNATIONAL GREEN ENTREPRENEURSHIP SOLIDARITY

SUMMARY OF THE PROJECT

Undoubtedly, one of the most important problems of the world in the near future is climate change and its destruction. In this sense, besides being a global problem, this problem attracts the attention of humanity in the regional and national sense. As the target group of the problem is all people living in the world, it is thought that especially children and young people will be affected more in the future dimensions of these problems.

Youth work in the European dimension has grown incredibly well in the last 20 years, with significant innovations and support. Over the years, the quality of youth work has increased and there has been a significant increase in the number of experienced youth workers working in this sense. The number of organizations that care about youth work and carry out activities in this field is also distributed to the smallest local units.

Denizli City Council Youth Assembly is the most rooted and most experienced youth organization in Denizli, one of Turkey's 81 provinces, especially in youth work and youth information. In this context, it has signed very important national and international projects for 17 years with hundreds of young volunteers and dozens of youth workers.

In this project, activities are planned to increase the competencies of all our youth workers within the body of our project partners on "Green Entrepreneurship" by bringing an innovative approach to youth work. At the same time, activities are planned to establish a "Green Entrepreneurship" network among youth workers from different countries and as a result, to lay the foundation for more effective projects in the future.
