

PROJECT “LET’S SHARE OUR STORIES”

International Erasmus+ Youth Exchange

Project Description

In the world people living in, there are many different behaviours individuals have due to their culture, which comes from their ancestors and also from their environment. Besides culture, individuals have their own preferences regardless of other people. By implementing this project, we want to make sure that

- young people become aware of diversity and its importance for a more sustainable world;

There'll be many engaging activities each day. During the activities, they'll have a sense of belonging to this group; because they'll see they're and their differences valued and accepted; and everyone will actively engage in.

As the outcome of the project, young people will have an understanding of diversity and inclusion among a group. When the young people get an understanding of this, they will have already had the necessary skill to build effective teams upon taking their places in the workforce.

Who are WE?
