Has the partner organization received any type of accreditation before submitting this application? No

Background and Experience

SUMA - Association for Sustainable Development is a non-governmental organisation based in Podravske Sesvete, Croatia and founded in 2020 by a group of young people.

Collaborations, capacity-building programs, and advocacy are the means by which they empower communities by promoting sustainable solutions and practices. They strive to have a meaningful impact locally, nationally, and internationally, with a team of experts who are passionate about making a difference.

The vision of the association is a sustainable future where communities thrive, the environment is preserved, and social and economic well-being are achieved through sustainable development. By believing in the more sustainable future we are working on personal development trainings, entrepreneurial competencies, volunteering programs, awareness programs, teaching various technical skills, communication skills, coaching, and rural development, the association is working towards discovering one's own full capacities, which can later be transferred to everyday life. Additionally, emphasis is placed on realizing social and environmental responsibility and feeling the effects of one's actions on the group and society.

Rooted in the local community, SUMA actively engages with residents, stakeholders, and partners to drive sustainable development, inspiring others to join the journey towards a greener and more

equitable future and always looking for new and innovative ways to make a difference. The organisation welcomes anyone who shares the vision to join and become part of the community.

The organization has been actively involved in implementing over two hundred activities on both the local and regional levels. Additionally, has managed seven projects in the field of youth on an international level, either directly or indirectly through the Association.

What are the skills and expertise of key staff/persons involved in this application?

Vladimir Milos (<https://www.linkedin.com/in/vladimir-milo%C5%A1-115613137/>)

His foreign experience spans over eight years, during which he studied and worked in several European countries. Development of agribusiness is his area of competence. In addition to the aforementioned, Vladimir has a great background in marketing, project management, entrepreneurship, rural development, and youth work. He is the president and co-founder of SUMA, an NGO. Vladimir previously attended Aeres University of Applied Sciences in the Netherlands to study business and administration (BBA) and agribusiness development (MSc). In addition to the previously stated, he possesses a master's degree in marketing and sales. Having worked on both local and international projects for the past four years, he has a variety of expertise in youth work.

Leo Fel

As a member of a few civil initiatives and representative bodies, he has been active in the civil sector for almost ten years. Holds a Master of Laws. Started in the Association of Croatian High School Students (2013 - 2016), then was president of the Student Union of the Faculty of Law of the University of Zagreb (2017/2018), and then one of the founders and president of the relaunched Association of Podravina Students (2019). One year of work experience in the civil sector (2021 - 2022). From January 2022, he temporarily moved to Luxembourg, where he is employed at the University of Luxembourg. He is one of the initiators of the "LAW&NOGOMET" conference, which has had two editions so far (Zagreb 2020, Opatija 2022). He was also an advisor for young people of Štedopis - Institute for Financial Education, where he was involved in financial literacy projects for young people. During his volunteer and work experience, he had the opportunity to travel to numerous countries (Germany, Slovakia, Serbia, Finland, Azerbaijan, Switzerland, Belgium, Romania, Spain).
