1. Please briefly describe your organization. Include information about your key staff, area of experience and a short profile of the youngsters that you are working with.

OREOLE JEUNESSE D'ÎLE DE France is a young association which was created in July 2022. We want to create, develop and carry out activities at local and international level in the field of popular education and youth.

Our organization's role is to enable people (children, young people, adults and the elderly) to be recognized as citizens, to participate in inclusion, to integration, to promote social cohesion, to live together, to fight against all forms of discrimination and to fight against poverty, particularly among young people.

It facilitates relations between young people, parents and populations, it allows young people to develop and understand their environment, to encourage their desire to participate in social life and to support them in their personal, academic, social and professional

2. What are the activities and experience of your organization?

Notre organisation est spécialisée dans l'accompagnement et dans le soutien scolaire des jeunes. À travers nos activités, nous restons au côté des jeunes dans leur développement et nous les assistons afin de garantir la réussite éducative. Nous accompagnons les jeunes dans les difficultés scolaires rencontrées.

Nous avons aussi comme programme, l'insertion de jeunes notamment ceux ayant moins d'opportunités. Ce programme propose des pistes de réflexion dans l'amélioration de ces jeunes à partir d'enquête de terrain suivi de préconisation.

Ensuite, nous proposons des ateliers de sensibilisations et d'orientation sur les structures d'insertion par l'activité économique. Nous les accompagnons dans la rédaction de CV et de lettre de motivation. Nous proposons des ateliers de résilience mentale et de développement personnel afin de maintenir un bon état d'esprit durant le processus d'accompagnement et d'insertion.

Durant cet accompagnement, les jeunes montent en compétences, développent et ou renforcent des capacités telles que le savoir, le savoir-faire, le savoir-être, la prise d'initiative, l'esprit d'entrepreneuriat le tout dans un environnement sécurisé et fiable.

Grâce au programme Erasmus+, nous ambitionnons de monter en qualité et en compétence afin de garantir un bon déroulement de nos activités.

3. Please give information on the key staff/persons involved in this application and on the competences and previous experience that they will bring to the project.

IBRAHIM KONE is a graduate in social analysis method and in public, social and territorial policies. He is also a mentor at the University of Versailles Saint Quentin en Yveline (UVSQ) and assists us in drafting projects, seeking funding and supporting the integration of young people. Also a graduate of a master's degree in sociology, he helps the association with survey techniques, identification of young people with fewer opportunities and then supports them.

DADOUDA DIARRASSOUBA is a graduate in accounting. He helps the association in all the financial and administrative management of the association. It facilitates the relationship with young people, parents and helps the association in setting up workshops. Field worker during field surveys. He has also undergone adult education training, a skill that helps us enormously in the development of our activities.

The Erasmus+ program will allow us to strengthen our skills, to develop other practices and methods with experienced associations in the field of youth.
