**TechInclusivity: Empowering  
Youth Workers for Digital Equity**

# Project Overview:

---

**Aim:** The primary aim of this project is to empower youth workers working with marginalized populations, minorities, and individuals facing fewer opportunities with the digital skills, tools, and resources they need to enhance their impact on social inclusion.

# Objectives:

---

- 1.Capacity Building:** Strengthen the digital skills and competencies of youth workers to effectively engage with their target groups using digital tools and technology.
- 2.Resource Development:** Create a comprehensive set of digital tools, materials, and resources tailored to the needs of youth workers and their organizations, facilitating more inclusive youth work practices.
- 3.Innovation and Inclusion:** Promote innovative approaches to digital youth work that foster social inclusion, diversity, and the participation of marginalized communities.
- 4.Peer Learning and Collaboration:** Facilitate networking, knowledge sharing, and collaboration among youth workers, organizations, and experts in the field of digital youth work.
