PERSONAL ABILITIES AND COMPETENCES

Team work	As project designer and manager, coordinator, trainer, youth worker, I have experience working in small and large teams of different profiles: young people, adults, educators, experts, volunteers, workers and youth leaders, institutional managers, sometimes mixed into one group.
Intercultural Competences	I have "the vision of the other" always in my thoughts and actions. I have acquired intercultural skills through a natural empathy, a catalogue of ancestors from different countries, many trips where I developed my curiosity and learning. My intercultural skills were shaped by numerous international activities (as a participant, project manager, coordinator, organizer or trainer): courses, seminars and projects in the field of programmes such as Youth, Youth in Action, Leonardo da Vinci, Socrates, Grundtvig cooperation projects with people, languages and cultures from around the world.
Mediation	I collaborate on regular basis with institutions like National Agencies of the Youth in Action programme and SALTO, mediating between different interests when implementing major activities. The coordination of an NGO daily leads me to mediate between all interests in the field: of the NGO, of employees who work there, members and target groups, of the partners and of local institutions.
Communication	I can make a speech in public, participate in discussions, lecturing and doing training in 5 languages. Daily I use different types of communication: interpersonal, in group, in team, oral, by e-mail, blogs and social networks, e-platforms. I'm in charge of the communication department of Nexes.
Leadership	I can take responsibility by staying calm even in difficult situations. As a leader I rather pursue the result valuing the energies that each can bring to the group. I consider essential to create a positive spirit in the group. I have coordinated different organisations for many years. I'm able to play a different role from leader and assist who leads.
Project and team management	I designed, coordinated and organised several international projects of different types (long-term projects, cooperation, training courses, seminars, conferences, etc.), I coordinated teams of two NGOs working in different countries (Italy and Spain), I have also coordinated many teams and project partners.
IT and new technologies	Proficiency in computer applications such as Microsoft Office, Photoshop, e-mail, databases, multimedia applications. Management of platforms of e-learning (http://www.saltoeuromed-elc.com) and social networks.
Technical competences	Proficient in the use of multimedia equipment.

VOLUNTARY WORK

- I worked as a volunteer at the Italian association Legambiente, www.legambiente.it, organising a local circle and several environmental awareness initiatives. Legambiente promotes awareness and action projects for sustainable development.
- Member of SETEM, organisation for the promotion of fair trade and responsible consumerism.

Davide Tonon
