Together with a group of 6 volunteers we worked with immigrant boys living in a local orphanage (Papafeio) organising experiential Theater Workshops. As a team, we developed a theater play named "THE GRENADE ORANGE" which was a narrative about the young boys' memories from war and violence in their home countries (mostly from Iraq, Afghanistan, Pakistan, and Albania). The experience was extremely succesful and the show ended up being presented more than 10 times (lasting longer than the actual project duration).
