TO WHOM IT MY CONCERN

I have worked with Mr Spetič for a few years in High school „Marko Marulić“ where he participated as guest associate. He showed his excellent social skills and enthusiasm to deliver spectacular results in the role of Informal Education Coach.

He proposed to me this cooperation and we we have successfully implemented it during my classes of elective curriculum Civic education and through a serial of workshops and meetings with my students such as Save the Egg Workshop – on creative problem solving, Real Ideal Workshop – on financial and life planning; Mission Z Workshop – on non-conflict problem solving; Speaker's Corner – on freedom of speech and human rights; Time management - on life planning; Self-assessment - evaluation.

Results were showed very soon in students' positive behavior changes in terms of more active citizenship, responsibility, positive perception of life and soft skills in general.

I am confident that Mr Spetič's exceptional skills, professional experience and personal qualities will make him a relevant youth trainer at "The Salto European Basis" and because of all the above Mr Spetič has my highest recommendation for this position.

Sincerely,

Natalija Palčić,

Teacher of Politics and Economics and Civic Education

National teacher advisor

Head of the county teacher's council of civic education and politics and economics
